Webex CALLING

A complete, cloud-based business phone solution. Affordable, per user fee for easy scalability. The best of everything in one solution.

NEVER MISS AN IMPORTANT CALL
Keep your business phone number or get a new number that rings on any device, anywhere, along with powerful cloud calling features.

EASY MANAGEMENT, LESS OVERHEAD
Forget the costly overhead of a physical business phone system, and easily manage all your services, users, and security in one place.

LETS CUSTOMERS REACH YOU, ANYWHERE
Easily manage incoming calls with extensions, shared lines, and intelligent call routing features that puts them in touch with the right person, every time.

SUPPORTING TODAY’S REMOTE BUSINESS OPERATIONS
Your business is wherever you are. Your customers need to reach you anywhere, and your employees need to stay connected everywhere. With Webex, you get the ultimate business calling solution so you can keep operations running, no matter where you are.

- Set your business number to ring on any device, anywhere.
- Quickly move your call from one device to another.
- Make business calls from your mobile device and keep your personal number private.
- Get integrated team messaging so you’re always in touch with your remote employees.
POWERFUL CALLING FEATURES AT THE PUSH OF A BUTTON.

- Record important calls to transcribe, listen to later, or share with other team members.
- Merge calls seamlessly or quickly go from a 1:1 call to a conference call.
- Easily place a call on hold and resume again, or transfer a call to another colleague.
- Never miss a call with features like Call Pickup that give you the ability to answer a colleague’s phone or a Hunt Group that searches for an available colleague to answer the call.
- Get complete visibility and see who’s calling with Call Waiting.

MESSAGING MADE SIMPLE.

- Connect and collaborate even better with team messaging features that are included as part of your Webex plan.
- Chat to others direct, or in team spaces that include rich text and expressive messaging.
- Send important messages or files, where they can be read and responded to right away – or flagged for follow-up later.
- Easily track all your conversations, with messages and files that are saved in your secure spaces.

NEED MEETING CAPABILITY?

Ask about adding it to your Webex Calling system!

Easily add meetings to the users who need it & get these features:

- Easily switch between a call and a full-featured meeting.
- Host HD video conferences with the same, easy-to-use interface.
- Easily share your entire screen or choose a specific file or application to share, to get everyone on the same page.
- And for those that can’t make the call, simply record the meeting with just the touch of a button.
